

CAMELOT was asked by a top 3 healthcare supplier to assess their ELC with focus on logistics processes and S&OP processes

Warehouse assessment of European Logistics Center

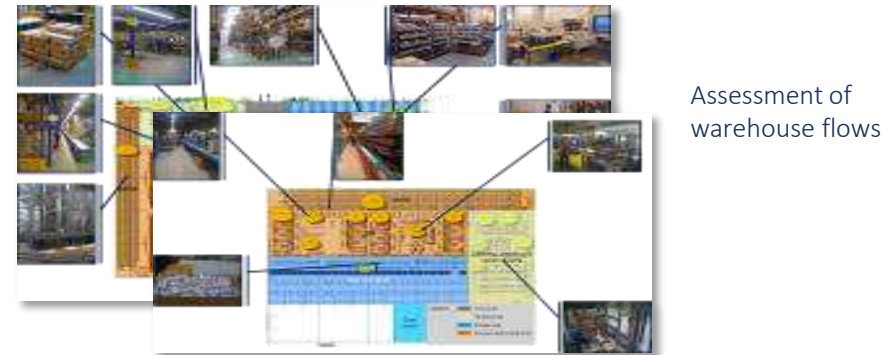

CLIENT ISSUES

- ▶ ELC should be prepared for future growth strategy
- ▶ Physical layout (Equipment, machines, sorting failures) of department should be assessed → Concept of material flow alignment is expected
- ▶ Possible Impact of different S&OP Processes on ELC should be identified

CAMELOT SOLUTION

- ▶ Analysis of logistics execution processes, warehouse flows, and cost situation
- ▶ Review of inventory of inbound and outbound area (raw material and finished goods)
- ▶ Analysis of current S&OP Process
- ▶ Create overview and prioritization on the proposed initiatives
- ▶ Develop roadmap for the future

PROJECT RESULTS

REALIZED BENEFITS

- ▶ By implementing the major opportunities a space extension of the ELC is not necessary
- ▶ Identified 39 improvement opportunities (13 major) for ELC
- ▶ Set up of future S&OP strategy
- ▶ Detailed roadmap to implement the recommendations

CAMELOT EXPERTISE

- ▶ Logistics experts with previous warehouse site management responsibility
- ▶ CAMELOT's warehouse assessment methodology
- ▶ CAMELOT's inventory assessment approach
- ▶ Hands-on implementation experience
- ▶ CAMELOT's excellent industry expertise
